Team spirit, sportsmanship and loyalty are just a few of the life skills taught.

At Egerton Primary School, our learners are encouraged to participate in a comprehensive and inclusive range of activities offered on both a competitive and non-competitive level.

Our objective is that our students, through these opportunities, are balanced and not solely focused in one area of development.

Egerton Primary believes that sport plays a major role in building long term personal and social values necessary to achieve success.

In the Foundation Phase, our main goal is participation. We want our young learners to try as many activities as possible, helping them develop the skills and confidence they'll need for more structured sports in the Intermediate and Senior Phases.

Our learners also enjoy taking part in Inter-House events, like our annual swimming gala and athletics heats, where teamwork and full participation are key.

To give our learners the best possible experience, we have a team of dedicated teachers involved in our extra-mural program. Together, they help us support the growth of our learners' minds, bodies, and spirits.
